

Refurbished Game Store Hull

{gallery}gamehull/main{/gallery} Game Store Hull, Here we carried out various redecorations and repairs to the shop.

We removed any fittings attached to the ceiling on the shop floor that were no longer required. after that we then redecorated the ceiling, columns and walls. In the staffroom there were some areas of the wall that needed repairing and then repainting that was also carried out. There were a couple of doors and some framework that needed painting that was also carried out. Once all the work was completed we then made sure that everywhere was clean and tidy at all the areas we had been working on.
